

APPLICATION FOR PERMIT

Serial No. 2394

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of first receipt and filing in State Engineer's office MAR 30 1912
Returned to applicant for correction _____
Corrected application filed _____

The undersigned Victor G. Shepard,
Name of applicant
of Melvin, County of White Pine,
State of Nevada, hereby make application for
permission to appropriate the public waters of the State of Nevada,
as hereinafter stated. (If applicant is a corporation give date and
place of incorporation.)

1. The source of the proposed appropriation is Gold Run Canyon Creek.
Name of stream, lake, or other source.
2. The amount of water applied for is 0.30 cu.ft. second-feet.
One second-foot equals 40 miners' inches.
3. The water to be used for Irrigation and Domestic purposes.
Irrigation, power, mining, manufacturing, domestic, or other use.
4. The water is to be diverted from its source at the following
point: (Application is for a change in point of diversion and
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section corner. If on unsurveyed land it should be so stated.
manner of use. See supplemental sheet.)

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

- (a) Number of acres to be irrigated is _____
- (b) Description of land to be irrigated _____
Describe by legal subdivision, or if on unsurveyed land it should be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.
- (c) Irrigation will begin about _____ and end about _____
Month Month

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION:

- (d) Power to be developed is _____ horse power.
- (e) Works to be located _____
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section corner.
- (f) Point of return of water to stream _____
Describe in same manner as point of diversion.
- (g) Remarks _____

DESCRIPTION OF PROPOSED WORKS

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water is to be stored in reservoirs it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

5. Estimated cost of works _____
6. Estimated time required to construct works _____
7. Remarks _____
For use of applicant.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed _____ cubic feet per second.

Actual construction work shall begin on or before _____

Proof of commencement of work shall be filed before _____

Work must be prosecuted with reasonable diligence and be completed on or before _____

Application of water to beneficial use shall be made on or before _____

Proof of the application of water to beneficial use must be filed with the State Engineer on or before _____

WITNESS MY HAND AND SEAL this _____ day of _____

_____, State Engineer.

OFFICE OF NEVADA STATE ENGINEER, CARSON CITY, NEVADA.

Application to change the manner of use and point of diversion
named in Permit No. 876 for Gold Run Canyon Creek.

Application No. 876 for the use of the water of Gold Run
Canyon Creek for power purposes was approved by the Nevada
State Engineer, Oct. 30, 1908. Victor G. Shepard, applicant,
now desires and hereby makes application to change the manner
of use and the point of diversion named in said Application
No. 876, such change to be made from power to irrigation and
domestic purposes, to be used upon seven and one-half (7.5)
acres of alfalfa land in the W $\frac{1}{2}$ NE $\frac{1}{4}$ Sec. 3, T. 20 N.R. 63 E.,
M.D.B & M; the diversion to be made at a point on Gold Run
Canyon Creek in said Sec. 3, whence the SE Cor., Sec. 1, said
T. & R., bears S.70°42'E., 13,339.7 ft.

Date of Application, Mar. 30, 1912.

Name of Applicant, Victor G. Shepard.

Postoffice Address, Melvin, White Pine County, Nevada.

Quantity of Water Claimed, 0.30 cu. ft., per sec.

Source of Water supply, Gold Run Canyon Creek,

Location of Point of Diversion, as above stated.

To be used for: Irrigation and Domestic Purposes, as above
stated.

Estimated cost of works: \$150.00.

Description of works for diversion:

1. Kind of Works, Small diversion dam and Open Ditch.

2. Dimensions of works:

(a) Height of dam, 1.5 ft; length at top, 8 ft;
length at bottom, 3 ft.; material used in
construction, wood, earth and stone.

(b) Capacity of reservoir, none. Dam used for
diversion only.

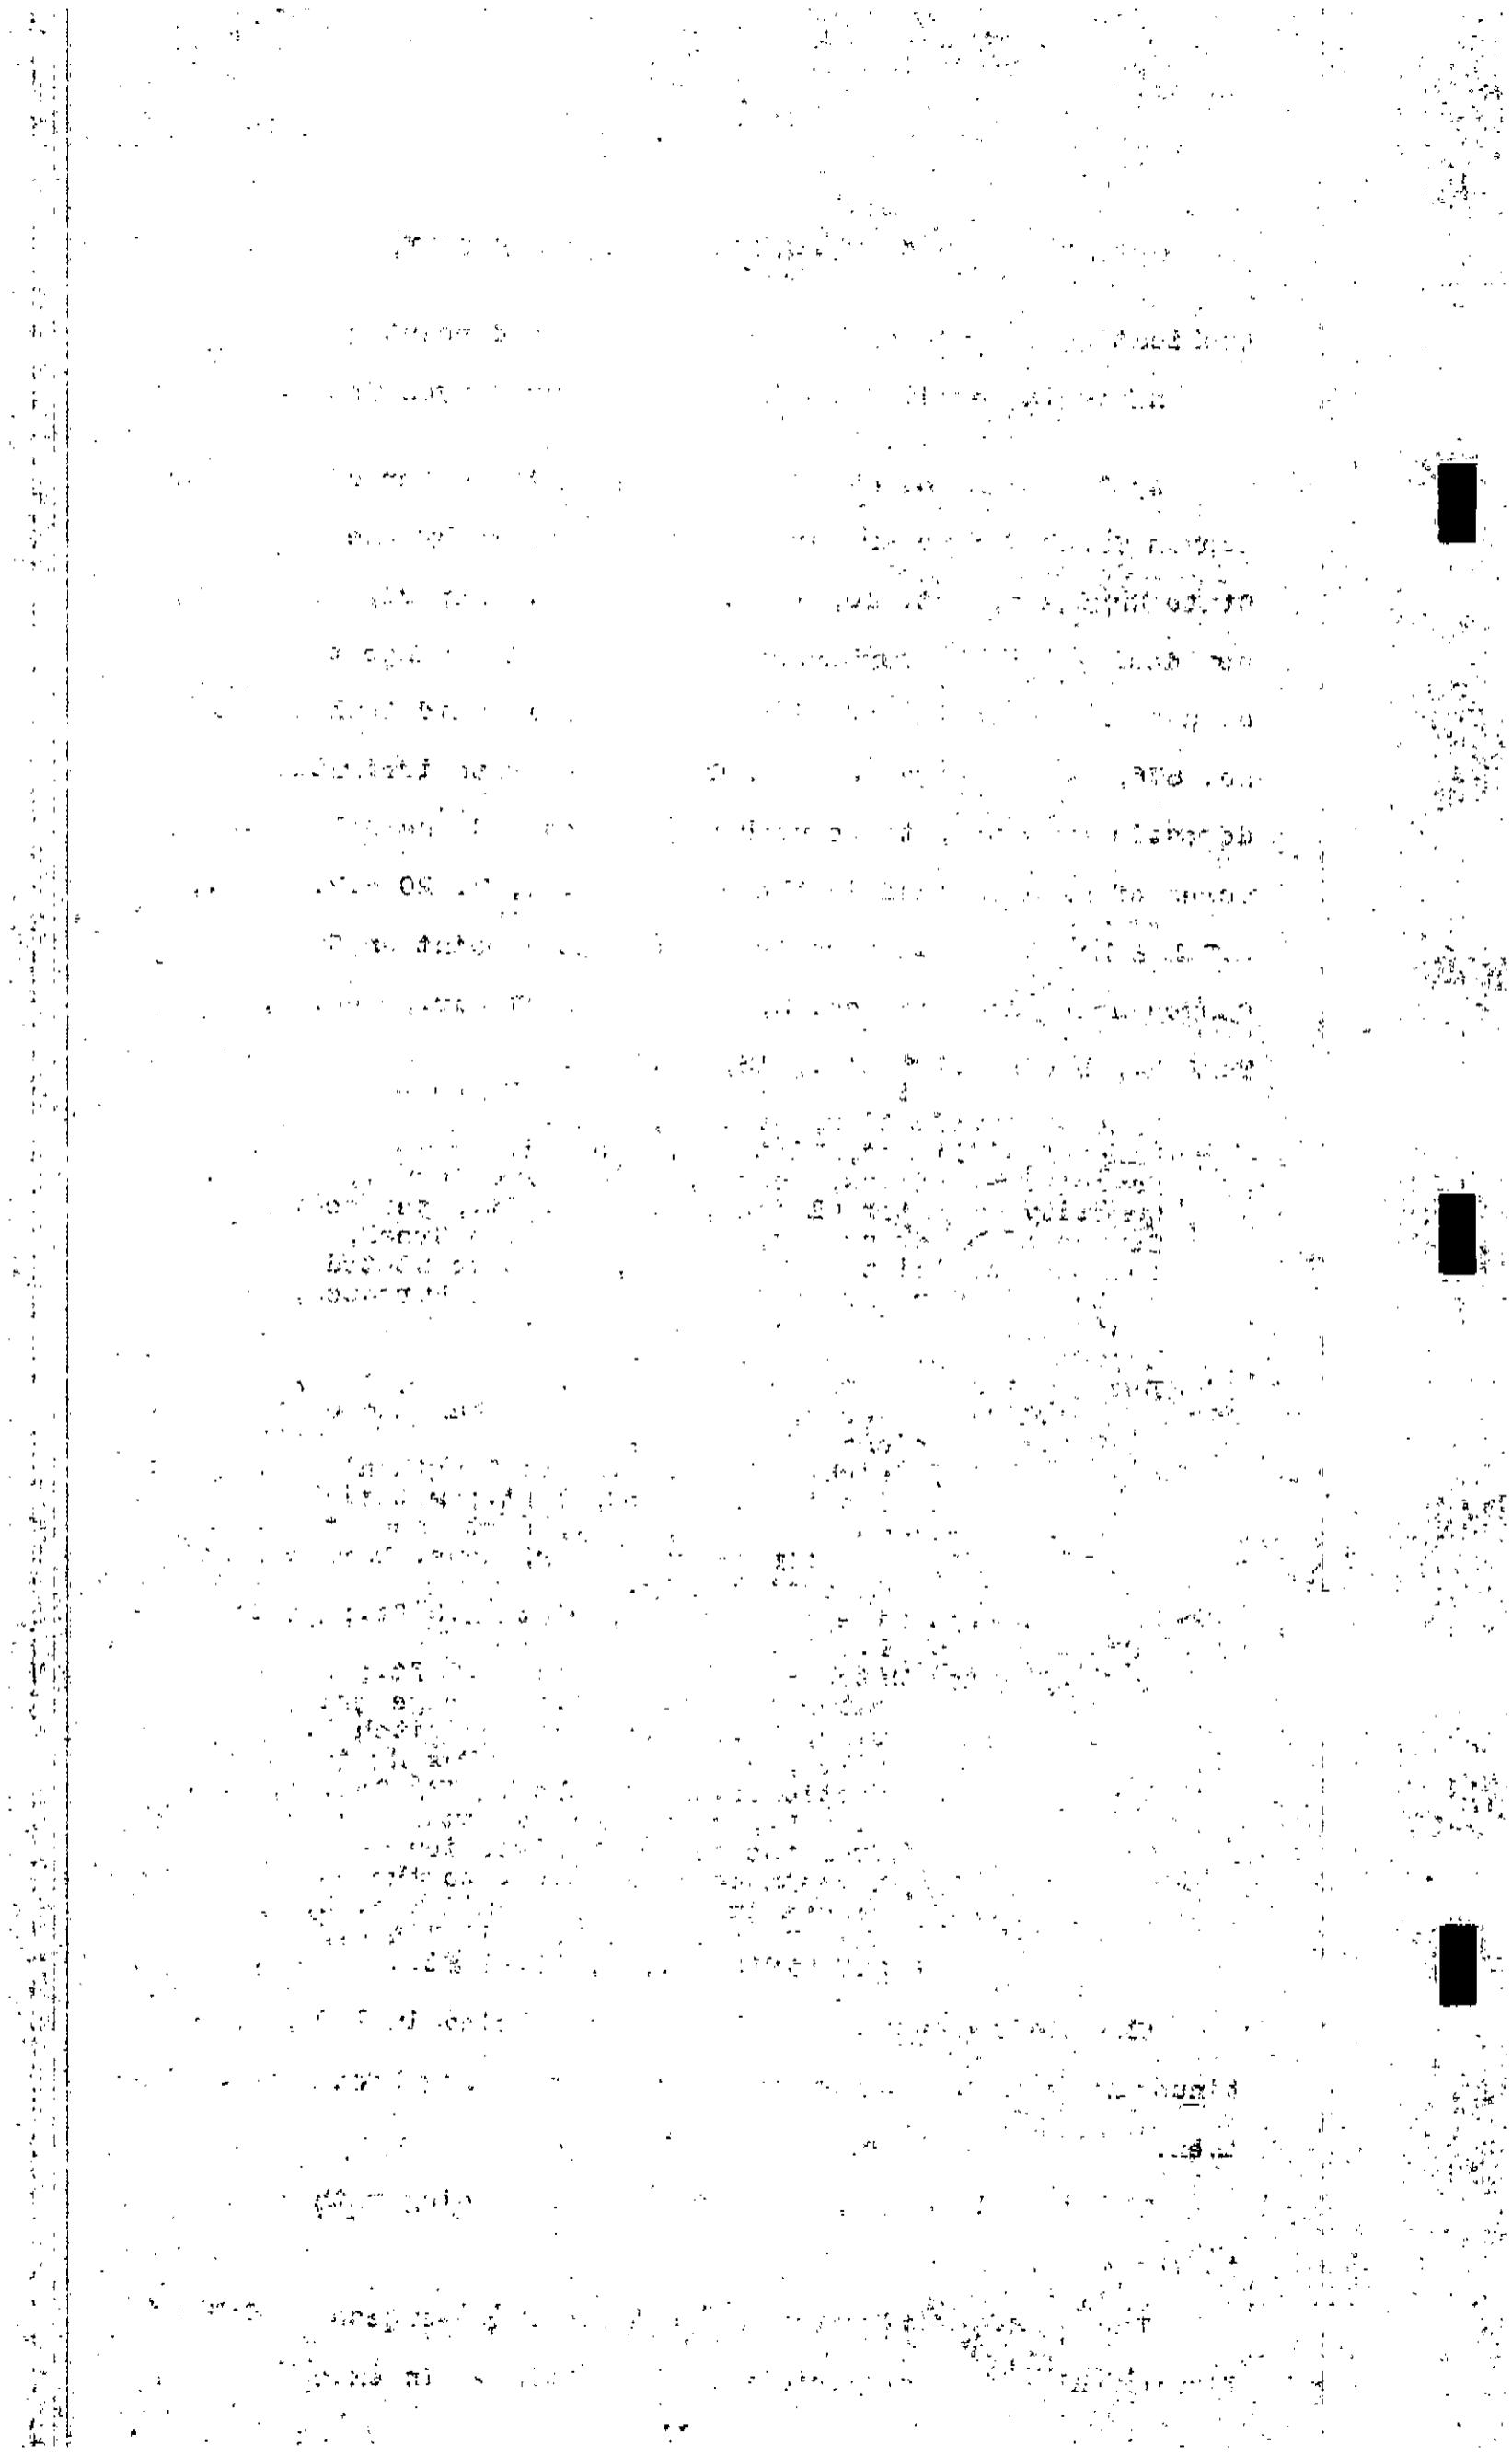

(c) Size of headgate, width 1.5 ft.; height
1.0 ft.

(d) Ditch:-Width at bottom 0.6 ft.; width at
water line 1.25 ft.; average grade per
mile, 31.7 ft.; length of ditch 0.2235
miles, crossing the following quarter
sections: All in the W $\frac{1}{2}$ NE $\frac{1}{4}$ Sec. 3, said
T. & R., running in a southerly direction
from the point of diversion above described
a distance of 1180 ft. to the end and point
of use in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ said Sec. 3, whence
the SE Cor. Sec. 1, said T & R., bears
S.74°19'30"E., 13,050.21 ft.

The above described works were completed in 1908, con-
tinuous use of the water for irrigation having been made since
then.

The soil is loose, sandy and rich, sloping rather steeply
to the east.

The quantity of water applied for is in excess of the
flow during ordinary periods of irrigation. In exceptional

seasons the flow has reached this amount, and the works are so arranged with reference to the topography that the full flow can be used to advantage without the construction of additional works. The works may be regarded as completed as they now stand, and under them the applicant contemplates the use of 0.30 cu. ft. per sec. in seasons that this amount may flow to his point of diversion.

Signed, Victor G. Shepard,
By Ed Millard & Son, Agent.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is granted subject to all prior rights existing on this source. A wier and headgate must be installed at the point of diversion to facilitate the measurement and control of water granted under this change in point of diversion. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.30 cubic feet per second.

Actual construction work shall begin on or before September 17th, 1912. Proof of commencement of work shall be filed before October 17th, 1912. Work must be prosecuted with reasonable diligence and be completed on or before November 17th, 1912.

Application of water to beneficial use shall be made on or before December 17th, 1912.

Proof of the application of water to beneficial use must be filed with the State Engineer on or before December 17th, 1912.

WITNESS MY HAND AND SEAL this 17th day of August, 1912.

Proof of labor filed OCT - 9 1912
Proof of beneficial use filed OCT - 9 1912
Map filed OCT 11 1912

Will Kearney

State Engineer.

Certificate No. 61 Backstage, and OCT 15 1912 for 0.0751 cubic feet per second.

*Cancelled, in accordance with office letter of August 30 1922 on
account of abandonment November 11 1922. R. C. Allen State Engineer.*
